Bucars RV Centre Announces Arrival of the Over 40's

Balzac, AB | Bucars RV Centre, the largest RV dealership in western Canada, is pleased to announce the arrival of the new 2007 American Coach "Over 40's." 2007 American Heritage, American Eagle, and American Tradition's are all available for the first time ever in Alberta—they're here and they're over forty feet long.

Never before have Albertans had the luxury of obtaining one of these truly magnificent machines capable of taking your breath away in one glance. Only recently has the government allowed the legal sale and operation of units that measure up to fourteen metres in length (that's just under 46 feet). Tom Bauer, Sales Manager at Bucars RV Centre in Balzac, was quick to pick up a handful of the American Coaches to offer customers all over Western Canada.

The new units rival most luxury hotel suites. New options and features dazzle the senses, including wall to wall tile, 40" Sony Bravia LCD televisions (have you seen the commercials?), 400hp-600hp CAT and Cummins engines, second bathroom, and much more. The only thing that seems to be missing is the housekeeper.

"The lines are sleek and the finishing touches immaculate," says Bucars General Sales Manager and owner Jeff Redmond, "Bucars is going to great lengths this fall offering people looking to escape, an opportunity of a lifetime." Coupled with CSA seals and industry leading safety features, the over forty's are sure to wet the appetite of anyone looking to get out of town in style and comfort.

"The beauty about these coaches is their size," continues Redmond. "We are offering something large enough to suit those particular needs that pertain to having more versatility in an RV." The second bathroom in the rear for instance is perfect for those who care for a bit more privacy. The exceptionally powered 600hp engine is capable of easing your way through the mountains or help make those extended trips to the south that much more comfortable.

When considering purchasing any type of unit from Bucars, you can be rest assured all your service needs are handled professionally and always with the customer in mind. "The American Coaches fit easily into any of our 16 full-service bays," says Bucars Service Manager Paul Sinclair.

Bucars is one of the very few who are stocking coaches over the forty foot marker, making their offer unique but not out of reach. Contact Tom Bauer at 403.207.1666 for viewings and visit their website, www.bucarsrv.com, for more information.
